

# Technical Drafting Contest Update 2023

## **UPDATES:**

### **Secondary and Postsecondary**

1. Please ensure you have "borrowed" a software license from your network. Some software will not work outside of your home networked facility. Also, borrow that license to the laptop or desktop that you will be using.
2. Please have a PDF writer on Laptop or Desktop. Your contestant will need to Print to PDF. Make sure that they know how to scale a drawing to an A, B, C or D size sheet.
3. Free PDF writer: <https://www.cutepdf.com/index.htm>
4. Thumb Drive (USB) needs to be brought and it will not be returned. Since only PDFs will be saved, you can bring the cheapest USB. No naming USBs.
